ROCHESTER'S MAYOR

Welcomes the Liquor Dealers' Association to That City—Two Prohibition Conventions Held.

ROCHESTER, N. Y., Sept. 4.—The State Liquor Dealers' association held its first session at Maennerichor Hall this morning. As early as 9 o'clock the representatives of the organization began to assemble. As many as 300 delegates were in attendance. After welcoming the delegates to Rochester, Mayor Parsons concluded his address as follows:

"All men agree that drunkenness is not only a disgrace, but a crime, and it is punished as such by the statutes of all civilized countries. I do not intend to argue to this convention of representative dealers that it is the duty of all good citizens to aid in carrying out this wise law. I, as chief magistrate of this city, however, may perhaps take the liberty to suggest that it is eminently proper for you, in your deliberations, to advocate such measures as will aid in maintaining good order and sobriety everywhere.

"Remember in your deliberations that you are not only delegates to the liquor dealers' convention, but that you are also loyal citizens of this glorious commonwealth of the Empire state."

In his address President Kearns said: "The condition of our organization, as will be apparent from the report of our financial secretary and of the executive committee, will show that we have not only held our lines but have added to it many others."

WORCHESTER, Mass., Sept. 4.—The state prohibition convention was called to order at 10:30 this morning at Mechanics' Hall. A permanent organization was perfected with Mr. Geo Kempton, of Iharon, as chairman. Mr. Kempton on taking the chair was cheered vociferously, and made an address, adding a postscript directed to the temperance republicans as "our friendly opponents."

The prohibition convention nominated Dr. John Blackmer, of Springfield, for governor.

SYRACUSE, N. Y., Sept. 4.—Nearly 500 delegates met at 11 a. m. to-day in the prohibition state convention in this city. The convention was opened by F. W. Wheeler, of Albany, chairman of the state committee. A. A. Hopkins, of Rochester, was elected temporary chairman and made an an address occupying most of the time remaining for the morning session. Before opening the convention a prayer meeting was held.

THE MISSISSIPPI RIOT.

The Trouble in That State is Not Yet Over.

GREENWOOD, Miss., Sept. 4.—Capt. Baskett, the sheriff of the county, has just returned from Winter City, and he reports that only five negroes were killed in the riot of Saturday night. The white men are still in possession of the place and have a gang of negroes, including Cromwell, the leader, and his lieutenant, Tom Alton, surrounded.

The sheriff says that the troops which were ordered to the scene by Governor Lowry have returned to Jackson. They found the white men had control and immediately returned home. The riot in which the five negroes were killed occurred before the arrival of the troops. Sheriff Baskett is of the opinion that the trouble is not over by any means.

A Rich Find.

RENSSELAER, Ind., Sept. 4.—Yesterday morning while digging a ditch in Kankakee swamps workmen found an iron bound box containing $439 in gold and silver coin of an old date; three gold and five silver watches; a number of pistols and knives and a miscellenous collection of jewelry. It is supposed to be some of the plunder of a gang of burglars that infested the community twenty years ago.

Fatally Shot.

KEYSER, W. Va., Sep. 4.—A serious shooting affray occurred here last night on the Cincinnati express. A young man named John Carr was on the train without a ticket and the conductor put him off three or four times. Finally the train hands had a rough-and-tumble tussle with Carr and somebody shot him twice in the forehead. Carr is still living.

Counterfeiters Caught.

WASHINGTON, Sept. 4.—Chief Bell, of the secret service, has received a telegram from Agent M. G. Bauer, dated Cincinnati, Sept. 3, 1889, saying that he had arrested George W. Williams and James H. Clark, at Clark's station, Ky., for dealing in and manufacturing counterfeit silver dollars. Their money was circulated in Indiana.

THE FULL QUOTA.

Micheal O'Connor Is Refused Admittance to the Indianapolis Insane Asylum--The Reason Why.

Papers have been received in this city refusing admittance to the insane asylum of Mr. Michael O'Conner, who has been in a distressing condition at the county asylum.

The reason of the refusal of acceptance is given briefly as follows: "Allen county has her full quota."

Supt. Wilkinson is anxious to know what is to be done. The asylum is at present incapable of accommodating the number of insane patients already there.

HOTEL BRUNSWICK CLOSED.

The House Shut Up and Big Improvements to Be Commenced at Once.

To-day Hotel Brunswick—Robinson house—was closed by order of the new owner, Mr. P. A. Randall, who will have work begun at once to remodel and renovate the building at a cost of several thousand dollars.

Mr. A. S. Barrett retires from the management of the house and if the well known hostelry every again opens its doors it will be conducted by another person.

A Tri-State Organization of Patriarchal Circle Being Perfected in This City.

This afternoon a two-day session was begun in this city of the united lodges of the Patriarchal Circle for the states of Indiana, Ohio and Michigan.

The object is to organize a Grand District Temple for the states named. A large number of the order are present.

The session will close to-morrow evening, and more delegations are expected to arrive in the morning.

HARTWELL-WILSON.

This morning Rev. S. A. Northrop went to Delphos, Ohio, to perform the marriage ceremony of B. J. Hartwell and Miss Ella Wilson. The bride is a niece of Mr. Frank Cosgrove, of this city. A party went from here to be at the ceremony.

GRAVES-HUBBARD.

A quiet and very pretty ceremony was that which united in matrimony Miss Charissa, daughter of Mr. and Mrs. C. E. Graves, and Dr. Thomas Hubbard. The nuptials took place at Trinity Episcopal church this morning, Rev. A. W. Seabrease officiating. Dr. and Mrs. Hubbard left this afternoon on a wedding trip after which they will go to Toledo to reside, the doctor having an extensive practice there.

To these young married people THE SENTINEL tenders congratulations.

GOVERNMENTAL GOSSIP.

Deputy Collector Yergens Retires and D. D. Diehl Assumes the Duties--Guager Sweet's Successor.

To-day, Mr. Gustav F. W. Yergens, deputy internal revenue collector, handed over the books of his office to Mr. D. D. Diehl, the new appointee. Collector Diehl is a resident of Butler, but will move his family here soon, his headquarters being in this city.

Mr. Yergens has filled his office most acceptably, as did his predecessor, Mr. George Ohneck, whose unexpired term he filled. He will leave shortly for a vacation at Stryker, Ohio, to try the benefit of the noted mineral springs, but will return in season to assume his new duties as traveling salesman for Joseph Lohman's cigar business by the 15th inst.

It is understood that Mr. Elliott S. Underhill will succeed E. R. Sweet as United Guager having been asked to file his bond Mr. Sweet has filled his place in a very capable and satisfactory manner.

The Weather.

WASHINGTON, Sept. 4.—Indiana—Rains; slightly warmer; southerly winds.

The latest thing in hat racks is the ferocious head of a bull dog, holding in his mouth a silver plated bar, from which the pegs protrude.

PHYSICIANS PUZZLED.

An Iowa Man Lives for Thirty-Eight Years With a Peculiar Derangement of the Vital Organs.

COUNCIL BLUFFS, Ia., Sept. 4.—Frank Havens, aged thirty-eight years, dropped dead yesterday afternoon. A post mortem examination disclosed an abnominal arrangement of the vital organs. The heart was on the right side, the apex lying against the second rib. A large coagula, amounting to about two quarts of blood, surrounded the heart. The liver was on the left side of the abdomen, and the stomach on the right.

The lungs were only one third the normal size and were pressed upward. How the man could have lived any length of time after birth, seems a mystery to the surgeons. The coroner's jury returned a verdict that death resulted from a rupture of the heart.

ALL FOR LOVE.

Two Young Men Fight a Duel and Sleep Side by Side in Death.

SALT LAKE CITY, Utah, Sept. 4.—Malad City, just over the Idaho border, has been thrown into excitement by a fatal duel between two young men, Abraham Likes and Jude Spring, of Clark's Flat. They came here last spring and went into partnership ranching. Both fell in love with the same woman, Jemima Frantz.

Unable to reach an amicable arrangement, they resorted to the Broadside with six shooters and there settled the matter by fatally wounding each other. They were buried where they fell, side by side. What has become of the girl does not appear.

"There," said the new lady of the castle, "are the graves of the former ancestors. My ancestors," she added, proudly, "are all living."—*Harper's Magazine.*

The world's total annual consumption of quinine is estimated at from 6,000,000 to 7,000,000 ounces. About two-fifths is consumed in the United States.

Mr. A. E. Hoffman was not among the parties who filed the injunction suit against the laying of an asphalt pavement. The complaint in this case was filed the last moment of office hours Monday evening, but was not a matter record until yesterday.

LOOK BEYOND.

A German medical periodical states that the valuable properties of the local anæsthetic, cocaine, were discovered by a mischievous student who was in the habit of recklessly tasting or rubbing on his skin whatever drugs he had occasion to handle. While thus carelessly experimenting with cocaine, a drop splashed into his eye.

He perceived that the organ at once lost power of sensation, and, on continuing his experiments, he found that he had discovered a substance which, for the time being, would render any portion of the body insensible to pain.

When a certain great French chemist heard this anecdote, he is said to have exclaimed, bitterly, "Thirty years have I sought in vain for this anæsthetic, and an idle boy picks it up in his play!"

If this story be true, it is one more example of the inequality with which the rewards of this world are distributed. "Fate," said the ancients, "is blind."

A good man strives through a long life to help others, but is hindered by poverty or some other circumstance. He sees no result of all his toil, while his rich, careless neighbor, by the mere signing of a check, educates the ignorant, feeds the hungry, and heals the sick. In fact, some of the greatest benefits have been given to the world by bad men, whose purpose was to injure, rather than to help.

This seeming injustice perplexes the minds even of very young persons. The school-boy toils faithfully over his books, and then, owing to timidity, a natural defect of memory, or a transient ailment, he sees the prize carried off by some superficial, but showy, comrade.

How is he to find the justice in such things?

"There is no justice in fate," says Bishop Houghton, "if we believe that God only controls the world to-day; but when we know that He rules the to-morrow of the next world, we know that all wrongs will be set right."

Among the paintings of the Russian Verestchagin is one of a deserted battlefield upon a lonely mountain-side.

The dead had been carried away to be laid among their kindred. One poor fellow only had been overlooked, and his mouldering bones were found by the painter covered by the snows of the solitary wilderness, while the careless winds and the unheeding clouds passed over him.

But the picture of that unburied body has gone all over the world, and the fate of the forgotten soldier has brought tears into the eyes of thousands, while his comrades are now unknown and unmourned.

NOT DONE WITH TANNER.

Secretary Noble Will Take Up the Tanner Investigation in a Decisive Way This Week.

WASHINGTON, Sept. 4.—Secretary Noble, accompanied by his private secretary, Hinton Pope, returned to the city this morning from Richfield Springs, where they have been for three weeks. It is stated with some degree of positiveness that the secretary will take up the Tanner investigation in a decisive way before the end of the week, the investigating committee having learned enough to warrant action.

President and Mrs. Harrison and Private Secretary Halford arrived here from Deer Park, at 2 o'clock this afternoon and left at 4 o'clock for Philadelphia.

THE LONDON STRIKE.

The Police Fire Upon a Crowd of Strikers.

LONDON, Sept. 4.—The captains and officers of the Peninsular and Oriental line of steamships, assisted by a large force of Lascars, to-day began the loading of the steamers of that line. A crowd of strikers attacked the Lascars, and the police were compelled to fire upon them. One of the strikers was fatally wounded.

There is a marked further increase to-day in the number of men who are at work on the docks. The dock companies are resuming the work of loading vessels and the docks present a brisk appearance.

He also secured several photographs of the phenomena in different phases, one showing Jupiter half covered by the moon. These are the first photographs ever secured of this phenomena and the results are highly interesting and valuable.

E. A. K. HACKETT, Editor and Proprietor.

WEDNESDAY, SEPT. 4, 1889.

TWO HEBREWS own the site of ancient Babylon, where their ancestors were captives and slaves.

SECRETARY WINDOM and his family have been traveling through New Hampshire by carriage.

MRS. GEN. ROBERT ANDERSON, widow of the hero of Fort Sumpter, is now residing in New York City.

THE one hundredth birth day of Sophia Lawrence, a remarkably preserved, as well as companionable old lady, who still enjoys good health, and pieces quilts, etc., without glasses, was observed with a public gathering at Bethel, this state, yesterday.

NATURAL gas as a fuel has been in use about fifteen years. There are now employed in its transmission for fuel purposes 27,350 miles of pipe mains. In Pittsburg alone there are 500 miles, and the consumption of gas there represents an annual consumption of 7,000,000 tons of coal.

DR. TALMAGE, of Brooklyn, says: "Every newspaper reporter in New York is my personal friend. I have been betrayed by about every class of men in the world, but never by a newspaper man, and I believe there is a spirit of fairness abroad in the newspapers that is hardly to be found anywhere else." The reverend gentleman is right. There isn't a better class of men beneath the shining sun than the oft abused newspaper men. Take the Fort Wayne representatives for instance.

D. L. MOODY is preparing to open an evangelistic training school, in Chicago, to continue throughout the year. The plan, as outlined in the prospectus, is similar in character to that of the summer school, which he has so successfully conducted at Northfield, Mass., for several successive seasons. The main purpose is to give the best practical instruction in the English Bible, and in all that has to do with mission work of every kind. Colleges and theological schools already established do not wholly meet the want.

THE Washington *Post* has been trying to stir up the governors of the various states to grow enthusiastic over the proposition to remove the remains of General Grant from Riverside Park, New York, to Arlington on the Potomac. Seventeen governors of states or territories have been heard from. A few of them who are situated far away from all centers of enlightenment say, "By all means let Grant be buried at the nation's capital, because he belongs to the nation." But the thoughtful men all say it is a question for the family to decide.

NATURAL GAS COMING.

THE SENTINEL several days ago expressed a fear that natural gas would not be in the city in time for the first coming of cold weather. It certainly affords us pleasure to be able to say this morning that natural gas may be blazing in this city next week.

"Our approaching natural gas lines are within seven miles of each other today," said Mr. C. S. Bash yesterday.

He expects the junction to be completed by Tuesday next, and "after that," said Mr. Bash, "we will arrange a natural gas display for the citizens of Fort Wayne and vicinity."

RETURNING THANKS.

At a special meeting of the Trades and Labor council, held last evening, the following resolutions were introduced and passed unanimously:

WHEREAS, the newspapers, merchants, manufacturers and business men in general, gave us financial and matierial support, in the celebration of Labor Day, therefore be it

Resolved, That a vote of thanks be returned to the press of the city for their earnestness and interest in the success of the occasion, as well as for their kind words, articles and assistance.

Resolved, That we return a vote of thanks to those who contributed either money, goods or work toward making the celebration a success, also to all parties who appeared in the industrial parade.

Resolved, That thanks be returned to the general public and visitors for the interest manifested by them in the celebration.

The Trades and Labor Council are to be congratulated on the success of their first celebration of Labor Day in this city.

MORTGAGE ON THE WHITE HOUSE.

The recent agitation about building a new and more expensive presidential mansion has brought to the surface an old mortgage on the White House, that has been forgotten or lost sight of for a long time. Mr. M. B. Harlow, secretary and treasurer of the Mount Vernon avenue association, is the man who brings forward the claim. In an interview about the proposed new executive mansion, he says:

"I am glad to see the subject agitated, and I hope it will be taken up and pushed by congress. When it is, our association, to whom the Virginia legislature has transferred its claim against the government for money borrowed by General Washington to build the present structure, will present that claim and ask for payment for the old before it commences the new. The claim, which is for $120,000, has never been denied by the government, nor can it be, for we have the promise of the government, made through Washington, to pay the money back to Virginia should it ever be willing to do so. We will not perhaps ask that the claim be paid in money, but will probably request that congress defray the expense of building the proposed national highway to Mount Vernon. If they agree we will transfer the Virginia mortgage on the White House as a contribution to the project."

EIGHTY-SEVEN COUNTIES

Supplied--Unprecedented Rush for the New Books---1,100 Requisitions.

The public schools throughout the state open this week and next, and except in a few localities the books provided for under the new text book law will go into use when the term opens. Secretary Hawkins, of the Indiana School Book company, said that the opposition to the law and the difficulty of putting it in force had been greatly magnified. "There has been some opposition to the law," said he, "but it was nearly all from agents of Van Antwerp, Bragg & Co., Barnes & Co., Ivision, Blakeman and other companies in the combine, who have been swarming over the state attempting to create a prejudice against the law.

"We are making an unprecedented effort to supply the demand for books," said Mr. Hawkins. "We now have four thousand people at work getting them ready. We are working seven sets of plates and are having work done in seven different printing offices in St. Louis, Chicago and St. Paul."

Superintendent Felts has made a partial requisition for the necessary books for Allen county. The demand here so far has not met the expectations of Mr. Felts.

Distress after eating, heartburn, sick headache and indigestion are cured by Hood's Sarsaparilla. It also creates a good appetite.

News About Town.

It is the current report about town that Kemp's Balsam for the Throat and and Lungs is making some remarkable cures with people who are troubled with Coughs, Sore Throat, Asthma, Bronchitis and Consumption. Any druggist will give you a trial bottle *free of cost*. It is guaranteed to relieve and cure. The large bottles are 50c and $1.

Herr Gottfried Keller, of Zurich, whom Paul Heyse called "the German Shakespeare," has recently celebrated literary jubilee.

Hark! hark! 'tis SOZODONT I cry,
Haste youths and maidens, come and buy.
Come and a secret I'll unfold,
At small expense to young and old.
A charm that will on both bestow
A ruby lip and teeth like snow.

An ancient aqueduct, unruined and fit for present use, has been discovered close to Athens. It is in the suburb toward Hymettus.

Pond's Extract has long been a friend of mine and the various afflicted ones with whom I come in contact. It truly seems a conscientious remedy, and one has only to read upon the wrapper the many ills for which it is a cure to realize fully what an overwhelming load of responsibility each bottle bears upon its shoulders. Out upon the pessimist who thinks the world is not advancing! I shall shake my bottle of Pond's Extract in his face, freely and annoint his demented head with the same; and when the cure is established write you to add, "Pessimism" to the next labels you have printed.

Grates and open stoves using No. 5 Mixer or smaller, where boilers or furnaces are also used for heating the premises, shall be charged $7.50 each per annum.

The company will make all necessary connections with its street mains and run service pipes to the curb line without expense to the consumer.

The mixers are owned by the company, and are furnished without charge. Patrons are cautioned against interfering with them in any manner. Any defective service on the part of the company will be promptly attended to, upon notice to the office. A damper in the stove pipe is necessary to insure successful service.

All bills are due on the 1st day of the month, and payable in advance AT THE OFFICE OF THE COMPANY. Ten days' grace is allowed to patrons who pay promptly, but BILLS MUST BE PAID ON OR BEFORE THE 10TH OF EACH MONTH TO SAVE DISCOUNT. Allowing the time for discount to expire before making payment does not give an extension of time on the bill.

All applications, notices and complaints must be made at the office to insure prompt attention.

The business of the company MUST be transacted AT ITS OFFICE. If you do not clearly understand any point in this circular, call at this office and explanations will be cheerfully given.

☞ The mixer is the bulb through which the gas passes to be mixed with air. A No. 5 mixer is the size generally used for domestic purposes and will supply sufficient gas for heating equal to an ordinary hard coal stove, burning from 4½ to 5 tons of coal during the season. No. 7 and upward are for hot air furnaces and steam heating apparatus.

No. 5 mixer has 4-32 opening.
No. 7 mixer has 5-32 opening.
No. 9 mixer has 6-32 opening.

Special attention is called to the annual rates, which are much below the cost of coal, wood or gasoline.

Furnace or cook stove will be counted as one stove, and where additional fires are used they will be figured on the basis of reduction named in price list.

Annual Contracts are payable in six monthly installments, commencing with the date of connection, between November 1 and May 1, and continuing to April 1, and commencing again November 1 if necessary to complete six monthly installments. If connections under Annual Contracts are made after May 1, but previous to November 1, then such monthly payments shall begin November 1 and continue to April 1.

Any consumer using $40.00 worth of gas per year according to above schedule shall have the right to require gas to be furnished by meter measurement instead of schedule rates; in which case the company shall have the right to charge ten (10) cents per 1,000 feet. Standard meters will be furnished by the company.

For all manufacturing purposes and for all other consumers not designated in the foregoing schedule, gas shall be furnished at the option of the consumer as follows:

First, by special agreement, or second, by meter measurement not exceeding seven (7) cents per 1,000 cubic feet.

TAR-OID

NATURE HAS NO BETTER REMEDY

Than this New Compound of Tar for

Wounds, Burns, Sores, Piles, Salt Rheum, Eczema, and

Coughs, Croup, Scrofula, Ulcers, Varicose Veins, Bronchitis, and Consumption.

TAR-OID must not be confounded with the cheap remedies which are prepared on the theory that *Skin Diseases* are caused by *impure blood*, which is not true. They have their cause in a want of *vital action* in the skin. TAR-OID restores this action, hence it cures every form of *Skin Disease*, also sores, burns, etc. It is soothing and wonderfully healing—gratifying results follow in every case. It is harmless and can be used with perfect safety by any one. It is superior to all other remedies. There is positively nothing else like it.

TAR-OID is a sure cure for piles. It never fails. We warrant a cure or refund the money. It gives immediate relief. It is perfectly safe, yet powerful in its action.

THIRD POINT

You should read the CHICAGO DAILY NEWS because it's *an independent newspaper*. There are two sides to every political question, and THE DAILY NEWS gives them both with equal fairness. A party organ magnifies one side and dwarfs the other. No sensible man wants to be trifled with in this fashion. The time has gone by when American citizens expect to inherit their political opinions. They want to make their own—and to do this they want a paper to tell them the truth, regardless of their own personal preferences. If you are an honest man, independent and self-reliant in thought, read an honest and independent newspaper—read The CHICAGO DAILY NEWS.

Remember—Its circulation is 220,000 a day—over a million a week—and it costs by mail 25 cts. a month, four months $1.00,—*one cent a day.*

LONG LIFE.

There is nothing in the world more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only knew that the very best health-keeper, life-preserver and disease preventer that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

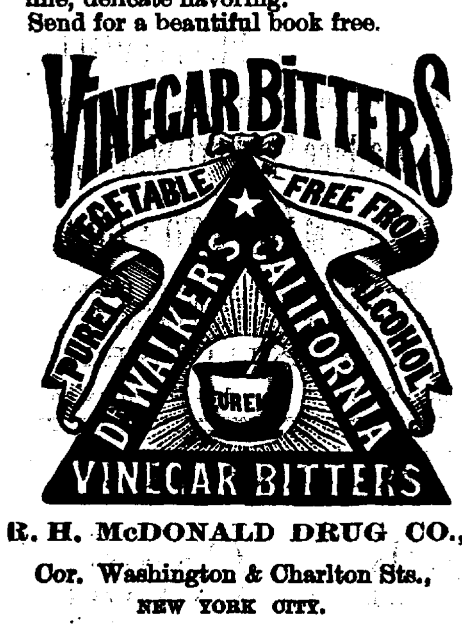

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them?

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, for it really is a mine—of health.

Free from alcohol and opium; composed of expensive herbs and roots, with fine, delicate flavoring.

WEDNESDAY, SEPT. 4, 1889.

WEDNESDAY'S WHIFFS.

Wafted From the Busy Centers and Told as Taken From Our Reporter's Note Book.

The excursion business is at a stand still this week.

Agent C. H. Newton, of the Wabash, is at Cleveland.

The Pittsburg machine shops is working thirteen hours a day.

Bert Olds, clerk at the Olds wheel works, has returned from his Michigan trip and resumed his position again.

Frank M. Morgan, of the Fort Wayne iron works, who was recommened by fifty young republicans, has accepted a position as mail carrier.

The boys at the Bass works are already congratulating William Lerch, machinist, on his approaching marriage. He will step into matrimonial life on the 14th of this month.

M. A. Zook, engineer of maintenance of way of the second and fourth divisions of the Pennsylvania lines west of Pittsburg, has resigned on account of ill health, and is succeeded by W. S. Newhall.

The national association of stationary engineers was organized about ten years ago and now nearly every state in the Union is represented. The annual convention of the body is being held at Detroit this week.

Henry Moellering, moulder at the Bass works, has recovered the horse formerly owned by him. He traded it a few weeks ago for another horse, and and this animal not proving as represented, the trade was rescinded.

Superintendent Casanave, Locomotive and Fuel Inspector E. P. Lord, Master Mechanic G. L. Potter and Mechanical Engineer William Slataper, all of the Pennsylvania company, are at Allegheny attending a meeting of railroad men.

This morning the caboose on the Wabash accommodation coming from the east, was derailed when near the Olds wheel works. The brakeman threw the switch before the rear trucks of the caboose had passed over and this ran the coach onto two different tracks. Several passengers were on the car and they were pretty badly frightened.

Last evening the roof in the car-wheel department of the Bass works took fire from flying sparks from the furnace, but was extinguished before it got much headway by G. M. Fordney and Wm. Axt, two of the moulders who were near at the time. Mr. Fordney climbed up on the roof and fought the flames in a heroic manner, thus preventing what might have been a bad blaze.

The shipments of flour, grain, and provisions from Chicago to the seaboard by the lines in the Central Traffic Association last week, aggregated 16,579 tons, against 17,679 for the preceding week, a decrease of 1,100 tons, and against 17,203 for the corresponding week last year, a decrease of 624 tons. The Vanderbilt lines carried 52.3 per cent. of the whole business; the Pennsylvania lines, 21.8; the Chicago and Grand Trunk, 17.7, and the Baltimore and Ohio, 8.2.

As a result of the passenger rate war now in progress between the Pennsylvania, the Monon and the Big Four roads, a round trip rate of $7 has been established between Chicago and Louisville and Chicago and Cincinnati. This is $2 less than the regular one-way rate. An employe of one of the roads said yesterday that the whole trouble originated in the delay of the Monon in paying a $30,000 claim to the Pennsylvania. Suit has been brought on the claim, but this method was taken of hurrying matters.

Three robbers broke into the Wabash depot at Carthage Monday night, and after cruelly beating and gagging John Caywood, the night man, attempted to compel him to open the safe. He could not and then they maltreated him in a savage manner, leaving him tied and gagged. They tore out the telegraph instruments, tried to break the safe door and ransacked the office thoroughly. Caywood got one hand loose in the meantime and fired four shots at the villians, one of which it is hoped took effect.

An Important Element

Of the uccess of Hood's Sarsaparilla is the fact that every purchaser receives a fair equivalent for his money. The familiar headline "100 Doses One Dollar," stolen by imitators, is original with and true only of Hood's Sarsaparilla. This can easily be proven by any one who desires to test the matter. For real economy, buy only Hood's Sarsaparilla. Sold by all druggists.

The oyster season is open.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle *Free,* that they may try it before purchasing. The large bottles are 50c and $1.00. We certainly would advise a trial. It may save you from consumption.

SACRED HEART ACADEMY.

The Classes at This Institution Resumed To-day—A Promising Year.

That model institution of learning, the Academy of Our Lady of the Sacred Heart was opened to pupils to-day.

The classes this year will be larger than ever. The reputation of the school has extended far and well it might, for a more desirable place for training can not be found.

Located on beautiful grounds, free from the hum of city life, the children and young lady pupils have the influences of nature surrounding them. The Sisters, too, are careful in their teachings, and mould young minds to model womanhood.

Wonderful Popularity.

The fact that the sale of Dr. Pierce's Pleasant Purgative Pellets exceeds that of any other pill in the market, be it great or small, is on account of the fact that they are tiny, little, sugar-coated granules, and that in most cases one little "Pellet" is sufficient for a dose; that they are purely vegetable and perfectly harmless; and for constipation, billiousness, sick headache, and all diseases arising from derangement of the liver, stomach, or bowels, they are absolutely a specific. A gentle laxative or active cathartic, according to size of dose.

Bank Closed.

CRESTON, Iowa, Sept. 3.—The banking house of L. S. Brooks, at Lennox, closed its doors yesterday.

Loose's Red Clover Pill Remedy, is a positive specific for all forms of the disease. Blind, Bleeding, Itching, Ulcernated and Protruding Piles—Price 50c. For sale by Dreier Bros.

There was a terrible epidemic of dysentery and bloody flux in Pope County, Illinois last summer. As many as five deaths occurred in one day. Messrs. Walter Brothers, of Waltersburg, sold over 380 bottles of Chamberlain's Colic, Cholera and Diarrhoea Remedy during this epidemic, and say that they never heard of its failing in any case when the directions were followed. It was the only medicine used that did cure the worst cases. Many persons were cured by it after the doctors had given them up. 25 and 60 cent bottles for sale by Geo. H. Loesch.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It sooths the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. Jan-27-1y

Our little girl when but three weeks old broke out with eczema. We tried the prescription from several good doctors, but without any special benefit. We tried S. S. ROCHESTER'S MAYOR

Welcomes the Liquor Dealers' Association to That City—Two Prohibition Conventions Held.

ROCHESTER, N. Y., Sept. 4.—The State Liquor Dealers' association held its first session at Masonerichor Hall this morning. As early as 9 o'clock the representatives of the organization began to assemble. As many as 300 delegates were in attendance. After welcoming the delegates to Rochester, Mayor Parsons concluded his address as follows:

"All men agree that drunkenness is not only a disgrace, but a crime, and it is punished as such by the statutes of all civilized countries. I do not intend to argue to this convention of representative dealers that it is the duty of all good citizens to aid in carrying out this wise law. I, as chief magistrate of this city, however, may perhaps take the liberty to suggest that it is eminently proper for you, in your deliberations, to advocate such measures as will aid in maintaining good order and sobriety everywhere.

"Remember in your deliberations that you are not only delegates to the liquor dealers' convention, but that you are also loyal citizens of this glorious commonwealth of the Empire state."

In his address President Kearns said: "The condition of our organization, as will be apparent from the report of our financial secretary and of the executive committee, will show that we have not only held our lines but have added to it many others."

WORCHESTER, Mass., Sept. 4.—The state prohibition convention was called to order at 10:30 this morning at Mechanics' Hall. A permanent organization was perfected with Mr. Geo Kempton, of Ibaron, as chairman. Mr. Kempton on taking the chair was cheered vociferously, and made an address, adding a postscript directed to the temperance republicans as "our friendly opponents."

The prohibition convention nominated Dr. John Blackmer, of Springfield, for governor.

SYRACUSE, N. Y., Sept. 4.—Nearly 500 delegates met at 11 a. m. to-day in the prohibition state convention in this city. The convention was opened by F. W. Wheeler, of Albany, chairman of the state committee. A. A. Hopkins, of Rochester, was elected temporary chairman and made an address occupying most of the time remaining for the morning session. Before opening the convention a prayer meeting was held.

THE MISSISSIPPI RIOT.

The Trouble in That State is Not Yet Over.

GREENWOOD, Miss., Sept. 4.—Capt. Baskett, the sheriff of the county, has just returned from Winter City, and he reports that only five negroes were killed in the riot of Saturday night. The white men are still in possession of the place and have a gang of negroes, including Cromwell, the leader, and his lieutenant, Tom Alton, surrounded.

The sheriff says that the troops which were ordered to the scene by Governor Lowry have returned to Jackson. They found the white men had control and immediately returned home. The riot in which the five negroes were killed occurred before the arrival of the troops. Sheriff Baskett is of the opinion that the trouble is not over by any means.

A Rich Find.

RENSSELAER, Ind., Sept. 4.—Yesterday morning while digging a ditch in Kankakee swamps workmen found an iron bound box containing $489 in gold and silver coin of an old date; three gold and five silver watches; a number of pistols and knives and a miscellenous collection of jewelry. It is supposed to be some of the plunder of a gang of burglars that infested the community twenty years ago.

Supt. Wilkinson is anxious to know what is to be done. The asylum is at present incapable of accommodating the number of insane patients already there.

Dr. and Mrs. Hubbard left this afternoon on a wedding trip after which they will go to Toledo to reside, the doctor having an extensive practice there.

To these young married people THE SENTINEL tenders congratulations.

To-day, Mr. Gustav F. W. Yergens, deputy internal revenue collector, handed over the books of his office to Mr. D. D. Diehl, the new appointee. Collector Diehl is a resident of Butler, but will move his family here soon, his headquarters being in this city.

Mr. Yergens has filled his office most acceptably, as did his predecessor, Mr. George Chneck, whose unexpired term he filled. He will leave shortly for a vacation at Stryker, Ohio, to try the benefit of the noted mineral springs, but will return in season to resume his new duties as traveling salesman for Joseph Lohman's cigar business by the 15th inst.

It is understood that Mr. Elliott S. Underhill will succeed E. S. Sweet as United Gauger having been asked to file his bond Mr. Sweet has filled his place in a very capable and satisfactory manner.

The Weather.

WASHINGTON, Sept. 4.—Indiana—Rains; slightly warmer; southerly winds.

The latest thing in hat racks is the ferocious head of a bull dog, holding in his mouth a silver plated bar, from which the pegs protrude.

PHYSICIANS PUZZLED.

An Iowa Man Lives for Thirty-Eight Years With a Peculiar Derangement of the Vital Organs.

COUNCIL BLUFFS, Ia., Sept. 4.—Frank Havens, aged thirty-eight years, dropped dead yesterday afternoon. A post mortem examination disclosed an abnormal arrangement of the vital organs. The heart was on the right side, the apex lying against the second rib. A large coagula, amounting to about two quarts of blood, surrounded the heart. The liver was on the left side of the abdomen, and the stomach on the right.

The lungs were only one third the normal size and were pressed upward. How the man could have lived any length of time after birth, seems a mystery to the surgeons. The coroner's jury returned a verdict that death resulted from a rupture of the heart.

ALL FOR LOVE.

Two Young Men Fight a Duel and Sleep Side by Side in Death.

SALT LAKE CITY, Utah, Sept. 4.—Malad City, just over the Idaho border, has been thrown into excitement by a fatal duel between two young men, Abraham Ildes and Jude Spring, of Clark's Flat. They came here last spring and went into partnership ranching. Both fell in love with the same woman, Jemima Frantz.

Unable to reach an amicable arrangement, they resorted to the Broadside with six shooters and there settled the matter by fatally wounding each other. They were buried where they fell, side by side. What has become of the girl does not appear.

"There," said the new lady of the castle, "are the graves of the former ancestors. My ancestors," she added, proudly, "are all living."—*Harper's Magazine.*

The world's total annual consumption of quinine is estimated at from 6,000,000 to 7,000,000 ounces. About two-fifths is consumed in the United States.

LOOK BEYOND.

A German medical periodical states that the valuable properties of the local anesthetic, cocaine, were discovered by a mischievous student who was in the habit of recklessly tasting or rubbing on his skin whatever drugs he had occasion to handle. While thus carelessly experimenting with cocaine, a drop splashed into his eye.

He perceived that the organ at once lost power of sensation, and, on continuing his experiments, he found that he had discovered a substance which, for the time being, would render any portion of the body insensible to pain.

When a certain great French chemist heard this anecdote, he is said to have exclaimed, bitterly, "Thirty years have I sought in vain for this anæsthetic, and an idle boy picks it up in his play!"

If this story be true, it is one more example of the inequality with which the rewards of this world are distributed. "Fate," said the ancients, "is blind."

A good man strives through a long life to help others, but is hindered by poverty or some other circumstance. He sees no result of all his toil, while his rich, careless neighbor, by the mere signing of a check, educates the ignorant, feeds the hungry, and heals the sick. In fact, some of the greatest benefits have been given to the world by bad men, whose purpose was to injure, rather than to help.

This seeming injustice perplexes the minds even of very young persons. The school-boy toils faithfully over his books, and then, owing to timidity, a natural defect of memory, or a transient ailment, he sees the prize carried off by some superficial, but showy, comrade.

How is he to find the justice in such things?

"There is no justice in fate," says Bishop Houghton, "if we believe that God only controls the world to-day; but when we know that He rules the to-morrow of the next world, we know that all wrongs will be set right."

Among the paintings of the Russian Verestchagin is one of a deserted battlefield upon a lonely mountain-side.

The dead had been carried away to be laid among their kindred. One poor fellow only had been overlooked, and his mouldering bones were found by the painter covered by the snows of the solitary wilderness, while the careless winds and the unheeding clouds passed over him.

But the picture of that unburied body has gone all over the world, and the fate of the forgotten soldier has brought tears into the eyes of thousands, while his comrades are now unknown and unmourned.

NOT DONE WITH TANNER.

Secretary Noble Will Take Up the Tanner Investigation in a Decisive Way This Week.

WASHINGTON, Sept. 4.—Secretary Noble, accompanied by his private secretary, Hinton Pope, returned to the city this morning from Richfield Springs, where they have been for three weeks. It is stated with some degree of positiveness that the secretary will take up the Tanner investigation in a decisive way before the end of the week, the investigating committee having learned enough to warrant action.

President and Mrs. Harrison and Private Secretary Halford arrived here from Deer Park, at 2 o'clock this afternoon and left at 4 o'clock for Philadelphia.

The Police Fire Upon a Crowd of Strikers.

LONDON, Sept. 4.—The captains and officers of the Peninsular and Oriental line of steamships, assisted by a large force of Lascars, to-day began the loading of the steamers of that line. A crowd of strikers attacked the Lascars, and the police were compelled to fire upon them. One of the strikers was fatally wounded.

There is a marked further increase to-day in the number of men who are at work on the docks. The dock companies are resuming the work of loading vessels and the docks present a brisk appearance.

Jupiter was temporarily obscured last night by the passing of the moon over its face. The phenomenon lasted forty-nine minutes, beginning about 9 o'clock. Lovers watched the heavenly sight, but our astronomer was not out. This dispatch, however, speaks of the phenomenon:

GENEVA, N. Y., Sept. 4.—Professor Brooks, director of the Smith observatory, successfully observed the occultation of Jupiter by the moon last night. He also secured several photographs of the phenomena in different phases, one showing Jupiter half covered by the moon. These are the first photographs ever secured of this phenomena and the results are highly interesting and valuable.

TWO HEBREWS own the site of ancient Babylon, where their ancestors were captives and slaves.

SECRETARY WINDOM and his family have been traveling through New Hampshire by carriage.

MRS. GEN. ROBERT ANDERSON, widow of the hero of Fort Sumpter, is now residing in New York City.

THE one hundredth birth day of Sophia Lawrence, a remarkably preserved, as well as companionable old lady, who still enjoys good health, and pieces quilts, etc., without glasses, was observed with a public gathering at Bethel, this state, yesterday.

NATURAL gas as a fuel has been in use about fifteen years. There are now employed in its transmission for fuel purposes 27,350 miles of pipe mains. In Pittsburg alone there are 500 miles, and the consumption of gas there represents an annual consumption of 7,000,000 tons of coal.

DR. TALMAGE, of Brooklyn, says: "Every newspaper reporter in New York is my personal friend. I have been betrayed by about every class of men in the world, but never by a newspaper man, and I believe there is a spirit of fairness abroad in the newspapers that is hardly to be found anywhere else." The reverend gentleman is right. There isn't a better class of men beneath the shining sun than the oft abused newspaper men. Take the Fort Wayne representatives for instance.

D. L. MOODY is preparing to open an evangelistic training school, in Chicago, to continue throughout the year. The plan, as outlined in the prospectus, is similar in character to that of the summer school, which he has so successfully conducted at Northfield, Mass., for several successive seasons. The main purpose is to give the best practical instruction in the English Bible, and in all that has to do with mission work of every kind. Colleges and theological schools already established do not wholly meet the want.

THE Washington *Post* has been trying to stir up the governors of the various states to grow enthusiastic over the proposition to remove the remains of General Grant from Riverside Park, New York, to Arlington on the Potomac. Seventeen governors of states or territories have been heard from. A few of them who are situated far away from all centers of enlightenment say, "By all means let Grant be buried at the nation's capital, because he belongs to the nation." But the thoughtful men all say it is a question for the family to decide.

NATURAL GAS COMING.

THE SENTINEL several days ago expressed a fear that natural gas would not be in the city in time for the first coming of cold weather. It certainly affords us pleasure to be able to say this morning that natural gas may be blazing in this city next week.

"Our approaching natural gas lines are within seven miles of each other today," said Mr. C. S. Bash yesterday.

He expects the junction to be completed by Tuesday next, and "after that," said Mr. Bash, "we will arrange a natural gas display for the citizens of Fort Wayne and vicinity."

RETURNING THANKS.

At a special meeting of the Trades and Labor council, held last evening, the following resolutions were introduced and passed unanimously:

WHEREAS, the newspapers, merchants, manufacturers and business men in general, gave us financial and matierial support, in the celebration of Labor Day, therefore be it

Resolved, That a vote of thanks be returned to the press of the city for their earnestness and interest in the success of the occasion, as well as for their kind words, articles and assistance.

Resolved, That we return a vote of thanks to those who contributed either money, goods or work toward making the celebration a success, also to all parties who appeared in the industrial parade.

Resolved, That thanks be returned to the general public and visitors for the interest manifested by them in the celebration.

The Trades and Labor Council are to be congratulated on the success of their first celebration of Labor Day in this city.

MORTGAGE ON THE WHITE HOUSE.

The recent agitation about building a new and more expensive presidential mansion has brought to the surface an old mortgage on the White House, that has been forgotten or lost sight of for a long time. Mr. M. B. Harlow, secretary and treasurer of the Mount Vernon avenue association, is the man who brings forward the claim. In an interview about the proposed new executive mansion, he says:

"I am glad to see the subject agitated, and I hope it will be taken up and pushed by congress. When it is, our association, to whom the Virginia legislature has transferred its claim against the government for money borrowed by General Washington to build the present structure, will present that claim and ask for payment for the old before it commences the new. The claim, which is for $120,000, has never been denied by the government, nor can it be, for we have the promise of the government, made through Washington, to pay the money back to Virginia should it ever be willing to do so. We will not perhaps ask that the claim be paid in money, but will probably request that congress defray the expense of building the proposed national highway to Mount Vernon. If they agree we will transfer the Virginia mortgage on the White House as a contribution to the project."

EIGHTY-SEVEN COUNTIES

Supplied—Unprecedented Rush for the New Books—1,100 Requisitions.

The public schools throughout the state open this week and next, and except in a few localities the books provided for under the new text book law will go into use when the term opens. Secretary Hawkins, of the Indiana School Book company, said that the opposition to the law and the difficulty of putting it in force had been greatly magnified. "There has been some opposition to the law," said he, "but it was nearly all from agents of Van Antwerp, Bragg & Co., Barnes & Co., Ivison, Blakeman and other companies in the combine, who have been swarming over the state attempting to create a prejudice against the law.

"We are making an unprecedented effort to supply the demand for books," said Mr. Hawkins. "We now have four thousand people at work getting them ready. We are working seven sets of plates and are having work done in seven different printing offices in St. Louis, Chicago and St. Paul."

Superintendent Felts has made a partial requisition for the necessary books for Allen county. The demand here so far has not met the expectations of Mr. Felts.

An ancient aqueduct, unruined and fit for present use, has been discovered close to Athens. It is in the suburb toward Hymettus.

Pond's Extract has long been a friend of mine and the various afflicted ones with whom I come in contact. It truly seems a conscientious remedy, and one has only to read upon the wrapper the many ills for which it is a cure to realize fully what an overwhelming load of responsibility each bottle bears upon its shoulders. Out upon the pessimist who thinks the world is not advancing! I shall shake my bottle of Pond's Extract in his face, freely and anoint his demented head with the same; and when the cure is established write you to add, "Pessimism" to the next labels you have printed.

Grates and open stoves using No. 5 Mixer or smaller, where boilers or furnaces are also used for heating the premises, shall be charged $7.50 each per annum.

The company will make all necessary connections with its street mains and run service pipes to the curb line without expense to the consumer.

The mixers are owned by the company, and are furnished without charge. Patrons are cautioned against interfering with them in any manner. Any defective service on the part of the company will be promptly attended to, upon notice to the office. A damper in the stove pipe is necessary to insure successful service.

All bills are due on the 1st day of the month, and payable in advance AT THE OFFICE OF THE COMPANY. Ten days' grace is allowed to patrons who pay promptly, but BILLS MUST BE PAID ON OR BEFORE THE 10TH OF EACH MONTH TO SAVE DISCOUNT. Allowing the time for discount to expire before making payment does not give an extension of time on the bill.

All applications, notices and complaints must be made at the office to insure prompt attention.

The business of the company MUST be transacted at its OFFICE. If you do not clearly understand any point in this circular, call at this office and explanations will be cheerfully given.

☞ The mixer is the bulb through which the gas passes to be mixed with air. A No. 5 mixer is the size generally used for domestic purposes and will supply sufficient gas for heating equal to an ordinary hard coal stove, burning from 4½ to 5 tons of coal during the season. No. 7 and upward are for hot air furnaces and steam heating apparatus.

No. 5 mixer has 4-32 opening.
No. 7 mixer has 5-32 opening.
No. 9 mixer has 6-32 opening.

Special attention is called to the annual rates, which are much below the cost of coal, wood or gasoline.

Furnace or cook stove will be counted as one stove, and where additional fires are used they will be figured on the basis of reduction named in price list.

Annual Contracts are payable in six monthly installments, commencing with the date of connection, between November 1 and May 1, and continuing to April 1, and commencing again November 1 if necessary to complete six monthly installments. If connections under Annual Contracts are made after May 1, but previous to November 1, then such monthly payments shall begin November 1 and continue to April 1.

Any consumer using $10.00 worth of gas per year according to above schedule shall have the right to require gas to be furnished by meter measurement instead of schedule rates; in which case the company shall have the right to charge ten (10) cents per 1,000 feet. Standard meters will be furnished by the company.

For all manufacturing purposes and for all other consumers not designated in the foregoing schedule, gas shall be furnished at the option of the consumer as follows:

First, by special agreement, or second, by meter measurement not exceeding seven (7) cents per 1,000 cubic feet.

NATURE HAS NO BETTER REMEDY

Than this New Compound of Tar for Wounds, Burns, Sores, Piles, Salt Rheum, Eczema, and Coughs, Croup, Scrofula, Ulcers, Varicose Veins, Bronchitis, and Consumption.

THIRD POINT. You should read the CHICAGO DAILY NEWS because it's an *independent newspaper*. There are two sides to every political question, and THE DAILY NEWS gives them both with equal fairness. A party organ magnifies one side and dwarfs the other. No sensible man wants to be misled with it in this fashion. The time has gone by when American citizens expect to inherit their political opinions. They want to make their own—and to do this they want a paper to tell them the truth, regardless of their own personal preferences. If you are an honest man, independent and self-reliant in thought, read an honest and independent newspaper—read THE CHICAGO DAILY NEWS.

Remember—Its circulation is 220,000 a day—over a million a week—and it costs by mail 25 cts. a month, four months $1.00,—one cent a day.

WEDNESDAY, SEPT. 4, 1889.

WEDNESDAY'S WHIFFS.

Wafted From the Busy Centers and Told as Taken From our Reporter's Note Book.

The excursion business is at a stand still this week.

Agent C. H. Newton, of the Wabash, is at Cleveland.

The Pittsburg machine shops is working thirteen hours a day.

Bert Olds, clerk at the Olds wheel works, has returned from his Michigan trip and resumed his position again.

Frank M. Morgan, of the Fort Wayne iron works, who was recommened by fifty young republicans, has accepted a position as mail carrier.

The boys at the Bass works are already congratulating William Lerch, machinist, on his approaching marriage. He will step into matrimonial life on the 14th of this month.

M. A. Zook, engineer of maintenance of way of the second and fourth divisions of the Pennsylvania lines west of Pittsburg, has resigned on account of ill health, and is succeeded by W. S. Newhall.

The national association of stationary engineers was organized about ten years ago and now nearly every state in the Union is represented. The annual convention of the body is being held at Detroit this week.

Henry Moellering, moulder at the Bass works, has recovered the horse formerly owned by him. He traded it a few weeks ago for another horse, and and this animal not proving as represented, the trade was rescinded.

Superintendent Casenave, Locomotive and Fuel Inspector E. P. Lord, Master Mechanic G. L. Potter and Mechanical Engineer William Slataper, all of the Pennsylvania company, are at Allegheny attending a meeting of railroad men.

This morning the caboose on the Wabash accommodation coming from the east, was derailed when near the Olds wheel works. The brakeman threw the switch before the rear trucks of the caboose had passed over and this ran the coach onto two different tracks. Several passengers were on the car and they were pretty badly frightened.

Last evening the roof in the car-wheel department of the Bass works took fire from flying sparks from the furnace, but was extinguished before it got much headway by G. M. Fordney and Wm. Axt, two of the moulders who were near at the time. Mr. Fordney climbed up on the roof and fought the flames in a heroic manner, thus preventing what might have been a bad blaze.

The shipments of flour, grain, and provisions from Chicago to the seaboard by the lines in the Central Traffic Association last week, aggregated 16,579 tons, against 17,679 for the preceding week, a decrease of 1,100 tons, and against 17,203 for the corresponding week last year, a decrease of 624 tons. The Vanderbilt lines carried 52.8 per cent. of the whole business; the Pennsylvania lines, 21.8; the Chicago and Grand Trunk, 17.7, and the Baltimore and Ohio, 8.2.

As a result of the passenger rate war now in progress between the Pennsylvania, the Monon and the Big Four roads, a round trip rate of $7 has been established between Chicago and Louisville and Chicago and Cincinnati. This is $2 less than the reguler one-way rate. An employe of one of the roads said yesterday that the whole trouble originated in the delay of the Monon in paying a $30,000 claim to the Pennsylvania. Suit has been brought on the claim, but this method was taken of hurrying matters.

Three robbers broke into the Wabash depot at Carthage Monday night, and after cruelly beating and gagging John Caywood, the night man, attempted to compel him to open the safe. He could not and then they maltreated him in a savage manner, leaving him tied and gagged. They tore out the telegraph instruments, tried to break the safe door and ransacked the office thoroughly. Caywood got one hand loose in the meantime and fired four shots at the villians, one of which it is hoped took effect.

An Important Element

Of the success of Hood's Sarsaparilla is the fact that every purchaser receives a fair equivalent for his money. The familiar headline "100 Doses One Dollar," stolen by imitators, is original with and true only of Hood's Sarsaparilla. This can easily be proven by any one who desires to test the matter. For real economy, buy only Hood's Sarsaparilla. Sold by all druggists.

The oyster season is open.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle *Free*, that they may try it before purchasing. The large bottles are 50c and $1.00. We certainly would advise a trial. It may save you from consumption.

SACRED HEART ACADEMY.

The Classes at This Institution Resumed To-day--A Promising Year.

That model institution of learning, the Academy of Our Lady of the Sacred Heart was opened to pupils to-day.

The classes this year will be larger than ever. The reputation of the school has extended far and well it might, for a more desirable place for training can not be found.

Located on beautiful grounds, free from the hum of city life, the children and young lady pupils have the influences of nature surrounding them. The Sisters, too, are careful in their teachings, and mould young minds to model womanhood.

Wonderful Popularity.

The fact that the sale of Dr. Pierce's Pleasant Purgative Pellets exceeds that of any other pill in the market, be it great or small, is on account of the fact that they are tiny, little, sugar-coated granules, and that in most cases one little "Pellet" is sufficient for a dose; that they are purely vegetable and perfectly harmless; and for constipation, billiousness, sick headache, and all diseases arising from derangement of the liver, stomach, or bowels, they are absolutely a specific. A gentle laxative or active cathartic, according to size of dose.

Bank Closed.

CRESTON, Iowa, Sept. 3.—The banking house of L. S. Brooks, at Lennox, closed its doors yesterday.

Loose's Red Clover Pill Remedy, is a positive specific for all forms of the disease. Blind, Bleeding, Itching, Ulcerated and Protruding Piles—Price 50c. For sale by Dreier Bros.

There was a terrible epidemic of dysentery and bloody flux in Pope County, Illinois last summer. As many as five deaths occurred in one day. Messrs. Walter Brothers, of Waltersburg, sold over 380 bottles of Chamberlain's Colic, Cholera and Diarrhoea Remedy during this epidemic, and say that they never heard of its failing in any case when the directions were followed. It was the only medicine used that did cure the worst cases. Many persons were cured by it after the doctors had given them up. 25 and 50 cent bottles for sale by Geo. H. Loesch.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle.

A COMPANY is being formed, with a capital of $8,000,000, for the purpose of holding a world's exhibition in Buenos Ayres.

LONG LIFE.

There is nothing in the world more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only knew that the very best health-keeper, life-preserver and disease preventer that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

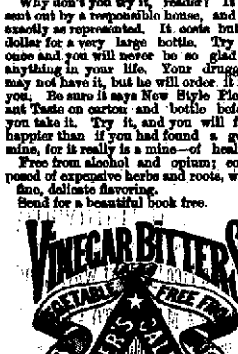

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them?

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, for it really is a mine—of health.

Free from alcohol and opium; compound of expensive herbs and roots, with fine, delicate flavoring.

S. and by the time one bottle was gone, her head began to heal, and by the time she had taken six bottles she was completely cured. Now she has a full and heavy head of hair—a perfect healthy child. I feel it but my duty to make this statement. H. T. SHOBE, Rock Hill, Mo.
